T. H. Jeffers Esq

Submit the following report for Wednesday the 20 day of Oct 1926.

From information and belief I am confident they will have "Dickman" here tomorrow at Grand Jury and Conductor Hotchkiss can get a good look at them and not be confused by picking them out of a line up which sometimes is done crooked if case District attys wish same where they are not personally interested in having man picked up, this goes for present condition here, in talking with Reporter Jack M. today he said who the H, could believe what that crook would say, Snipp did not return Mills body to day and may not until Friday, this afternoon

They brought Minnie Clark here ~~to day~~ to Troop Headquarters, and after they 3rd Degree her will take her to Judge Chase to be arraigned the majority of reporters left at 1 P.M. for New Brunswick to close horse race, as they Stock has fallen low with reporters, as they were talking today and one said no doubt Snipp will have plenty of indictments tomorrow

he is full of S— all a lot of noise, it seems he does not fullfill his talk what he is going to do from one day to the other, and from all appearances the public do not approve of his actions in doing so much talking. There should be something doing tomorrow if he does up what he says he is going to do. I think he is loosing ground as to getting so much notiriety as that is his game.
